

## Heco Square Table

■ F014D30K030 - Black

Lighting unit with diffuse light for exterior ground installation. Opalescent diffuser in shiny white translucent blown glass.

In both configurations, the elements can be used as either a small table or floor lamp. The small tables are available in two formats: square and rectangular. Both consist of two frames: one for illumination, the other to support the table surface. One shared leg unites the frames, acting as a concentric hinge to regulate the angle and hide the electrical power cable. With the intentional curve on the metal structure, the frame seems to sink delicately under the 'weight' of the luminous sphere.

The structure of the unit is made of stainless steel for effective resistance to atmospheric agents. The body is painted an opaque black. The table surface is available in different quartzite finishes: Crema d'Orcia and London Brown.

The light comes complete with external system to adjust the amount of light. LED light source included. 5-metre outdoor cable with Schuko IP44 plug. Backlit IP65 pedal dimmer switch on the cable for easy ON/OFF and to adjust the amount of light.

Table surface sold separately based on available finishes. CASAMBI function on demand.
